- Clubs/Groups: Association for Information Systems, Tech Club, University String Symphony/Jazz Lab Band
- Specialized Courses: Project Management, Database Systems, Enterprise Application Development, Web Programming, Data Communications, Business Processes and Controls, Data Structures, Systems Design

## Experience

---

### Tesla, Inc.

May 2017 - Present

#### Project Management Intern

Palo Alto, CA

- Compose and present a project proposal for a new tool that would make a business process more efficient and less prone to human error by researching technical and business requirements, designing a prototype, and clearly communicating the added business value of the tool
- Facilitate JIRA boards by creating detailed use cases and acceptance criteria to ensure business requirements are communicated and fulfilled, and by keeping engineers accountable for development velocity to minimize blockers and inefficiencies
- Develop Google Analytics Dashboards for a newly developed commerce site to help monitor site health and influence business decisions based on site performance data
- Design technical process documentation during a large technology shift to AEM, and assist in creating and maintaining a technical developer guide for the internal Tesla design system
- Introduce a company-wide intern program to create a more consistent and efficient onboarding experience allowing for a reduction in onboarding time from an average of two weeks to one, saving an estimated \$280,000 annually.

### Sovy LLC

Mar 2017 - Present

#### Co-founder and CTO

- Created <https://sovy.io> using WordPress to serve as a platform to educate customers on the dangers of phishing and how our product can help, and as an ecommerce site to sell our services
- Deployed and manage instances on AWS for SMTP servers and automated batch phishing emails
- Responsible for web and sales analytics to guide business strategy

### Marriott School of Management

Mar 2016 - Apr 2017

#### Data Analyst/Developer

Provo, UT

- Modified and maintained a Python/Django web application used to capture company recruiter information and provide an accommodating recruiting experience at the Marriott School
- Constructed Tableau data visualizations used by a department of 50 to better understand student and recruiter needs, and maintain student job placement of 90-100%
- Documented and maintained data analysis processes for Tableau and SQL to unify the 15 developers and analysts, and encourage long-term investment in Tableau and its continued use

## Volunteer

---

### The Church of Jesus Christ of Latter Day Saints

#### Volunteer Representative: Manchester England

- Provided weekly community service and delivered 20+ weekly lessons on life skills, relationships, and behavioral habits
